Crude Protein

**5.0%**  
Max Crude Fiber

**3.0%**  
Crude Fat

This feed is designed to be fed as the sole ration for starting turkeys and gamebirds, including pheasants, quail, chukar, and guineas. It is fortified with essential vitamins, minerals and the energy gamebirds need for healthy growth. Optimum amino acids and energy sources support muscle growth and feathering. It is a convenient, complete feed that comes in a crumble formula that encourages feeding.

- Turkeys
  - Feed as a sole ration day one to 8 weeks of age, transition to CF Gamebird and Turkey Grower
- Pheasants, quail, and chukar
  - Feed as the sole ration day one to 4 to 6 weeks of age. At 4 to 6 weeks of age, transition to CF Gamebird and Turkey Grower 21%
- Fresh clean water should be available at all times with adequate waters. If desired, proper sized grit may be offered at the rate of 1 LB per 100 birds.
- Store feed in a cool dry location protected from insects, rodents and other pests. Do not feed if the product becomes moldy or is contaminated in any way.

# Langebec Pine Shavings

SHAVINGS

When it comes to horse beddings, the very best option is the Eastern White Pine bedding: not only does it smell good (the oils are naturally odor-absorbing) but it also antibacterial, and it reduces the ammonia level when sifting the manure. It prevents pests and bacteria to ensure that you and your animals stay healthy! Manure and urine spots are easy to see, and no special equipment is required to clean the stall.

The dust-free wood shavings are particularly good for horses with respiratory problems and the kiln drying removes excess moisture, which could lead to mold. Using 100% Eastern White Pine wood shavings provide the best comfort and hygiene for your horses and other livestock!

# Lucerne Farms Hi Fiber Forage High-Fiber Hay Blend

**9.0%**  
Crude Protein

HI FIBER  
**30.0%**  
Max Crude Fiber

**1.5%**  
Crude Fat

Hi-Fiber is a measured blend of timothy, oat, and alfalfa hay blended with molasses. This high-fiber hay offers your horse a diverse forage blend that's perfect for horses of every age and skill level. High-temperature dried and dust-extracted to retain nutrients and eliminate mold, this chopped forage feed makes it an ideal all-around hay replacement, fiber supplement, and grain complement.

Max Crude Fiber

**5.0%**  
Crude Fat

For those seeking the same great high-fiber, low-sugar horse feed comprised of a short-chop, measured blend of timothy, oat, and alfalfa hay, but blended with soybean oil as an alternative to molasses, Hi Fiber Gold is an excellent choice. This is especially true for horses with a challenging diet. Chopped to the natural fiber length, and safe for horses with respiratory difficulty, this high-fiber, low-sugar horse feed blend suits horses with dental problems and chewing challenges. The addition of soy oil not only supplies energy without adding excitement, but it is also an excellent source of Vitamin E, a natural antioxidant.

# Lucerne Farms Alfa Supreme - Chopper Alfalfa Hay and Molasses Blend

ALFALFASUPR

**15.0%**

Crude Protein

Our blend of high-temperature dried and dust-extracted chopped alfalfa hay is perfect for the high-performance horse, brood mare, growing horse, and the horse prone to stomach ulcers. Chopped alfalfa hay provides the quality digestible proteins for slow release energy and muscle growth, the calcium required for strong, healthy bones, and is a natural source of biotin for building healthy hooves. Research also highlights its curative properties in horses prone to stomach ulcers. Our alfalfa hay and cane molasses blend, Alfa Supreme, is a consistent and excellent source of naturally occurring vitamins and minerals.

# Cargill Top-Flo Evaporated Salt 50 LB

11301220

Cargill Top-Flo Evaporated Salt 50lb is a typical 99.89% pure salt that complies fully with the standards set forth in the Food Chemicals Codex. Contains water soluble Yellow Prussiate of Soda to improve caking resistance and is intended for a variety of end uses such as dry salt dispensing and brining applications. Comes in a convenient 50 lb bag.

# Selenium “90” Trace Mineral Salt Block Green

11300050

A fine-screened selenium salt block or bagged product specially formulated with trace minerals to help meet the requirements of beef cattle. The trace minerals complement the diet to help promote digestion, growth, maintenance of body tissues, proper reproductive processes, and general animal well-being. Selenium is added as a supplement for use in selenium-deficient areas. Selenium “90” trace mineral salt blocks are weather resistant for free choice feeding.

# Trace Mineral Salt Block Red

11301625

A specially formulated bag and block product designed to help meet the salt and trace element requirements of most livestock. Trace minerals complement the diet to help promote digestion, growth, maintenance of body tissues, proper reproductive processes, and general animal well-being. This salt product is intended for beef cattle, dairy cows, horses, goats and pigs. Trace mineral salt licks, in the form of blocks, are weather resistant for free choice feeding.

# Champions Choice White Salt Block 50lb

7166754

Champion's Choice White Salt Blocks are an economical and efficient means for introducing salt as a nutrient into an animal's diet. Salt is needed by all classes of animals, but especially by herbivores (grass-eating animals). Weather-resistant for free-choice feeding.

- Recommended for beef and dairy cattle, swine, sheep, and horses.
- Economical and efficient means of introducing salt into the animals diet
- Weather resistant for free choice feeding.

## Plain White Salt Brick 4lb

PWSALTBK

Place near adequate water supply. Allow livestock free access to this feed salt.

## Red Trace Mineral Salt Brick 4lb

REDTRACEMINBRK

Provide essential salt plus an optimal balance of trace minerals with the Red Trace Mineral Brick. This durable, weather resistant brick allows easy free choice feeding. Ideal for cattle, horses, swine and other large animals.

# Diatomaceous Earth with Calcium Bentonite 40lb

11403029

Red Lake Earth is OMRI-listed for use in organic production and is for use in feeds as an anticaking agent or pelleting aid for further manufacturing in feed. Red Lake Earth is environmentally friendly, completely safe, and does not contain any antibiotics or harmful chemicals. The Diatomaceous Earth you know and trust!

- Generally Regarded As Safe (GRAS)
- Safe for large & small animals including poultry, dairy, swine, cattle, equine, goats, sheep, bison, ratite (e.g. ostrich, emu), rodents, rabbits, dogs, etc.
- A unique, naturally-occurring blend of Diatomaceous Earth and Calcium Bentonite
- To be used in an amount not to exceed two percent of the total diet. Consult the Compendium of Medicating Ingredient Brochures for acceptable drug compatibilities

# Calcium Carbonate (Ground Limestone)

CALCARB

A feed additive that's added to concentrate rations to increase the calcium content. Calcium ratios should be twice as high as phosphorous to avoid conditions such as urinary calculi.

Also aids in development in healthy bones.

To avoid milk fever, make sure rations have adequate calcium before late gestation.

# Sportsman's Choice Floating Pond & Catfish Food 40lb

58200062

**Make sure your pond inhabitants get all the protein they need with this fish food. Sportsman's Choice Floating Pond and Catfish Fish Food is a 32% protein fish feed designed to be fed to catfish and other farm pond species in a recreational feeding program. Containing vitamins C, E, D and B, the fish food is a nutrient-rich powerhouse. Add this fish food to your pond maintenance routine today.**

- Fish food supplies 32% protein to support multiple farm pond species of fish
- Highly palatable to maximize intake and viewing
- Fish food fortified with stabilized vitamins (high levels of vitamin, C, E, D and B complex) to ensure fish are receiving the correct nutrient balance to support rapid growth
- Special formula of fish food enhances digestibility and nutrient absorption
- Feeding Directions: Hand feed or feed from an automated feeder once daily; if hand-feeding, select a consistent location to feed; feed enough Sportsman's Choice Catfish feed until fish do not come to the pond surface to eat - typically within 5-7 minutes
- Store fish food in a dry location
